

Chair:
 Eros Pasero
Co-Chair:
 Francesco Carlo Morabito

STEERING COMMITTEE SIREN

Anna Esposito
Seconda Università di Napoli
 Mateo Fierrez-Zamuy
Politecnico University of Catalonia
 Francesco Carlo Morabito
Università Mediterranea di Reggio Calabria
 Francesco A. N. Palmieri
Seconda Università di Napoli
 Eros Pasero
Politecnico di Torino
 Stefano Rovetta
Università di Genova
 Stefano Squartini
Università Politecnica delle Marche
 Aurelio Uncini
Università di Roma "La Sapienza"
 Salvatore Vitabile
Università di Palermo

INTERNATIONAL ADVISORY COMMITTEE SIREN

Metin Akay
Arizona State University
 Pierre Baldi
University of California in Irvine
 Piero P. Bonissone
Computing and Decision Sciences
 Leon O. Chua
University of California at Berkeley
 Jaime Gil-Lafuente
University of Barcelona, Spain
 Giacomo Indiveri
Institute of Neuroinformatics, Zurich
 Nikola Kasabov
Auckland University of Technology, New Zealand
 Vera Kulkova
Academy of Sciences, Czech Republic
 Shoji Makino
NTT Communication Science Laboratories
 Dominic Palmer-Brown
London Metropolitan University
 Witold Pedrycz
University of Alberta, Canada
 Harold H. See
Army Night Vision Electronic Sensing Directorate
 Jose Principe
University of Florida at Gainesville, USA
 John G. Taylor
King's College London
 Alessandro Villa
Université Joseph Fourier, Grenoble 1, France
 Frédéric M. Ham
Florida Institute of Technology

This Workshop is sponsored by the

WIRN 2015 - CALL FOR PAPERS

The Italian Workshop on Neural Networks (WIRN) is the annual conference of the Italian Society of Neural Networks (SIREN). The conference is organized, since 1989, in co-operation with the International Institute for Advanced Scientific Studies (IIASS) located in Vietri S/M (Italy), and is a traditional event devoted to the discussion of novelties and innovations related to field of Artificial Neural Networks. In recent years, it also became a multidisciplinary forum on psychological and cognitive theories for modelling human behaviours. The 25th Edition of the Italian Workshop on Neural Networks (*WIRN 2015*) will be held at the IIASS in Vietri sul Mare, near Salerno, Italy.

WIRN 2015 will follow the conference Non-Linear Speech Processing (NOLISP) 2015 that is held from the 18th to the 20th of May 2015

CALL FOR PAPERS, SPECIAL SESSIONS PROPOSALS: Prospective authors are invited to contribute high quality papers in the topic areas listed below and proposals for special sessions. Special sessions aim to bring together researchers in special focused topics. Each special session should include at least 3 contributing papers. A proposal for a special session should include a summary statement (1 page long) describing the motivation and relevance of the proposed special session, together with the article titles and author names of the papers that will be included in the track. Contributions should be high quality, original and not published elsewhere or submitted for publication during the review period. Please visit the web site for details on the required paper format. Papers will be reviewed by the Program Committee, and may be accepted for oral or poster presentation. All contributions will be published in the Springer volume series Smart Innovation, Systems and Technologies (<http://www.springer.com/series/8767>) and indexed by SCOPUS. Authors will be limited to one paper per registration.

Manuscripts should not exceed the limits of 8 pages. The description of the submission procedure will appear soon on the SIREN Website www.associazionesiren.org

TOPIC AREAS: Suggested topics for the conference include, but are not limited to, the following research and application areas:

General Topics of Interest about Computational Intelligence:

Neural Networks, Fuzzy Systems, Evolutionary Computation and Swarm Intelligence, Support Vector Machines, Complex Networks, Bayesian and Kernel Networks, Consciousness and Models of Emotion Cognitive and Psychological Models of Human Behavior

Algorithms & Architectures:

Among others: Opportunist Networks, Metabolic Networks, ICA and BSS, Deep Neural Networks, Bio-inspired Neural Networks, Wavelet Neural Networks, Intelligent Algorithms for Signal (Speech, Faces, Gestures, Gaze, etc) Processing and Recognition

Implementations:

Among others: Hardware Implementations and Embedded Systems, Neuromorphic Circuits and Hardware, Spike-based VLSI NNs, Intelligent Interactive Dialogue Systems, Embodied Conversational Agents

Applications:

Among others: Finance and Economics, Big Data Analysis, Neuroinformatics and Bioinformatics, Brain-Computer Interface and Systems, Data Fusion, Time Series Modelling and Prediction, Intelligent Infrastructure and Transportation Systems, Sensors and Network of Sensors, Smart Grid, Process Monitoring and Diagnosis, Intelligent and Adaptive Systems for Human-Machine Interaction.

PAPER SUBMISSION: Important Dates

- **Special Session/Workshop proposals:** February 16, 2015
- **Paper Submission deadline:** March 31, 2015
- **Notification of acceptance:** April 30, 2015
- **Camera-ready copy:** on site, May 21, 2015
- **Conference Dates:** May 21-22, 2015

More detailed instructions will follow soon on the SIREN home page www.associazionesiren.org
